

Chloe Lanette Jones

Chloe writes that she is from Texas and she wants to become a doctor – an OB/GYN. She and her brother are the first in her core family to attend college.

In Chloe's personal statement, she states her reasons for wanting to become an OB/GYN. She states that she wants to help Black women get the same medical treatment as others. She wants to be that doctor who makes sure that all patients receive the same level of care. She wants to be the doctor who understands her patient, to make sure that every Black woman can feel safe in every hospital they enter.

She also states that she is involved with her community. "If I see a place that needs help, I am the first to call and be there to assist them with any help they may need. I have been doing community service since I was in eight grade and I will continue that is college and into my future."

Chloe has been accepted at University of North Texas and plans on majoring in Pre-Med (Biomed).
